

Directions:

From HVAR:

Take sign posts to StariGrad, then to Jelsa, then pick up sign posts to Zavalla. Once you get through the other side of the tunnel you follow the road turning left to Zavalla. On entering the village you will come to a fork in the road. You can go left or right:

If you bare right. About four hundred metres from the fork you will see some power cables go over the road and a steep road/driveway veering 90 degrees off left of the road, with a couple of parking spaces opposite the driveway. Hvarvista Apartments are about 50 metres up the driveway on the left

If you bare left carry on up a narrow road past a small shop on the left and a phone box on the right. Follow the road round until the small road drops down to the right. We are on the right left hand side with a brown garage door. There is parking space in front of the apartments.
